TIMSS 2007
International Science Report

Findings from IEA’s Trends in International Mathematics and Science Study at the Fourth and Eighth Grades

Michael O. Martin
Ina V.S. Mullis
Pierre Foy

In collaboration with
John F. Olson
Ebru Erberber
Corinna Preuschoff
Joseph Galia
# Contents

**Foreword** .......................................................... 1

**Executive Summary** ............................................. 5

**Introduction** ...................................................... 13

  - **What Is TIMSS?** .................................................. 14
  - **Which Countries Participated in TIMSS 2007?** ............ 15
    - Exhibit 1 Countries Participating in TIMSS 2007 .......... 16
    - Exhibit 3 Selected Characteristics of TIMSS 2007 Countries .......... 22
  - **What Was the Nature of the TIMSS 2007 Science Test?** .... 24
  - **How Was Information Collected About the Contexts for Learning Science?** ........ 25
  - **Who Conducts TIMSS?** ..................................... 26

**Chapter 1** ......................................................... 31

  - **International Student Achievement in Science**
    - **How Do Countries Differ in Science Achievement?** ....... 31
      - Exhibit 1.1 TIMSS 2007 Distribution of Science Achievement .......... 34
      - Exhibit 1.2 TIMSS 2007 Multiple Comparisons of Average Science Achievement .......... 36
    - **Trends Across Grades: Fourth to Eighth Grade Cohort Analysis** .......... 53
      - Exhibit 1.4 Cohort Comparison: 2003 Fourth Grade Students in Eighth Grade in 2007 .......... 54
    - **What Are the Gender Differences in Science Achievement?** .......... 55
      - Exhibit 1.5 TIMSS 2007 Average Science Achievement by Gender .......... 56
      - Exhibit 1.6 Trends in Average Science Achievement by Gender – 1995 Through 2007 .......... 60
How Much of Their Out-of-school Time Do Students Spend on Homework During the School Week? ................................................................. 163
Exhibit 4.7 Index of Time Students Spend Doing Science Homework (TSH) in a Normal School Week .................................................. 166

What Are Students’ Attitudes Toward Science? ................................................. 170
Exhibit 4.8 Index of Students’ Positive Affect Toward Science (PATS) with Trends ........ 173
Exhibit 4.9 Index of Students’ Valuing Science (SVS) with Trends .................. 181
Exhibit 4.10 Index of Students’ Self-Confidence in Learning Science (SCS) with Trends .... 186
Exhibit 4.11 Index of Students’ Self-Confidence in Learning Science (SCS) by Gender .... 192

Chapter 5 ........................................................................................................................................ 197
The Science Curriculum
Which Science Subjects Are Offered Up to and Including Eighth Grade? ............ 198
Exhibit 5.1 Science Subjects Offered Up To and Including Eighth Grade ............. 199

How Much Instructional Time Is Spent on Science? .............................................. 200
Exhibit 5.2 Weekly Intended and Implemented Instructional Time for Science with Trends. 202
Exhibit 5.3 Yearly Hours of Implemented Instructional Time for Science with Trends . 206
Exhibit 5.4 Percentage of Time in Science Class Devoted to TIMSS Content Domains During the School Year. ............................... 210

Are the TIMSS Science Topics Included in the Intended Curriculum Taught in School? ........ 212
Exhibit 5.5 Summary of TIMSS Science Topics in the Intended Curriculum ......... 214
Exhibit 5.6 Summary of Students Taught the TIMSS Science Topics ................. 218

Fourth Grade: Which TIMSS Science Topics Are in the Intended and Implemented Curriculum? .................................................................................. 220
Exhibit 5.7 Intended and Taught TIMSS Life Science Topics ............................... 222
Exhibit 5.8 Intended and Taught TIMSS Physical Science Topics ....................... 226
Exhibit 5.9 Intended and Taught TIMSS Earth Science Topics ........................... 232

Eighth Grade: Which TIMSS Science Topics Are in the Intended and Implemented Curriculum? .................................................................................. 236
Exhibit 5.10 Intended and Taught TIMSS Biology Topics .................................... 238
Exhibit 5.11 Intended and Taught TIMSS Chemistry Topics .............................. 243
Exhibit 5.12 Intended and Taught TIMSS Physics Topics .................................... 248
Exhibit 5.13 Intended and Taught TIMSS Earth Science Topics ........................... 252

Chapter 6 ........................................................................................................................................ 259
Teachers of Science
What Are the Background Characteristics of Science Teachers? .......................... 260
Exhibit 6.1 Science Teachers’ Gender, Age, and Number of Years Teaching with Trends 261

What Education and Training Do Teachers Have for Teaching Science? ................. 263
Exhibit 6.2 Highest Educational Level of Science Teachers ............................... 264
Exhibit 6.3 Teachers’ Educational Emphasis on Science and Teaching .......................... 266
Exhibit 6.4 Teachers’ Major Area of Study in Science ....................................... 268
Exhibit 6.5 Teachers’ Participation in Professional Development in Science ............. 270
Exhibit 6.6 Frequency of Collaboration Among Science Teachers with Trends .......... 272
What Is the Role of the School Principal? ................................................................. 356
Exhibit 8.5 Principals’ Time Spent on Various School-related Activities with Trends .......... 358
Do Schools Encourage Home Involvement? .............................................................. 362
Exhibit 8.6 Schools’ Encouragement of Parental Involvement .................................... 363
What School Resources Are Available to Support School Learning? ........................... 365
Exhibit 8.7 Index of Availability of School Resources for Science Instruction (ASRSI) ........ 368
Exhibit 8.8 High Index of Availability of School Resources for Science Instruction (ASRSI) with Trends ................................................................. 370
Exhibit 8.9 Schools with Science Laboratory ............................................................ 372
Exhibit 8.10 Index of Teachers’ Adequate Working Conditions (TAWC) ......................... 376
Exhibit 8.11 Schools’ Reports on Teachers’ Mathematics and Science Professional Development in the Past 2 Years. ................................................................. 380
What Are the Perceptions of School Climate? ......................................................... 382
Exhibit 8.12 Index of Principals’ Perception of School Climate (PPSC) with Trends .......... 384
Exhibit 8.13 Index of Science Teachers’ Perception of School Climate (TPSC) with Trends ... 386
How Safe and Orderly Are Schools? ........................................................................... 388
Exhibit 8.14 Index of Science Teachers’ Perception of Safety in School (TPSS) with Trends 390
Exhibit 8.15 Index of Students’ Perception of Being Safe in School (SPBSS) with Trends .... 392

Appendix A ................................................................................................................. 397
Supporting Documentation
TIMSS 2007 Science Framework .............................................................................. 397
Exhibit A.1 Overview of TIMSS 2007 Science Framework. ........................................ 398
Number of Items by Science Content and Cognitive Domains ................................. 399
Exhibit A.2 Distribution of Science Items by Content Domain and Cognitive Domain ... 400
Grades and Ages Assessed ....................................................................................... 402
Exhibit A.3 Information About the Grades and Ages of Students Tested in TIMSS 2007 404
Sample Implementation and Participation Rates .................................................... 408
Exhibit A.4 Coverage of TIMSS 2007 Target Population .......................................... 410
Exhibit A.5 School Sample Sizes ........................................................................... 412
Exhibit A.6 Student Sample Sizes .......................................................................... 414
Exhibit A.7 Participation Rates (Weighted). .............................................................. 416
Exhibit A.8 Trends in Student Populations .............................................................. 419
Translation and Layout Verification ....................................................................... 422
Survey Operations for Data Collection .................................................................. 423
Scoring the Constructed-Response Items ............................................................. 424
Test Reliability ......................................................................................................... 426
Scaling the Achievement Data .............................................................................. 426
Exhibit A.9 Average Percent Correct in the Science Content and Cognitive Domains .... 430
Scale Anchoring Analysis ....................................................................................... 432
Estimating Standard Errors ................................................................................... 433
Appendix B: Multiple Comparisons of Average Achievement in Science Content and Cognitive Domains

Exhibit B.1 Multiple Comparisons of Average Achievement in Life Science
Exhibit B.2 Multiple Comparisons of Average Achievement in Physical Science
Exhibit B.3 Multiple Comparisons of Average Achievement in Earth Science
Exhibit B.4 Multiple Comparisons of Average Achievement in Knowing
Exhibit B.5 Multiple Comparisons of Average Achievement in Applying
Exhibit B.6 Multiple Comparisons of Average Achievement in Reasoning
Exhibit B.7 Multiple Comparisons of Average Achievement in Biology
Exhibit B.8 Multiple Comparisons of Average Achievement in Chemistry
Exhibit B.9 Multiple Comparisons of Average Achievement in Physics
Exhibit B.10 Multiple Comparisons of Average Achievement in Earth Science
Exhibit B.11 Multiple Comparisons of Average Achievement in Knowing
Exhibit B.12 Multiple Comparisons of Average Achievement in Applying
Exhibit B.13 Multiple Comparisons of Average Achievement in Reasoning

Appendix C: The Test-Curriculum Matching Analysis: Science

Exhibit C.1 Average Percent Correct for Test-Curriculum Matching Analysis – Science
Exhibit C.2 Standard Errors for the Test-Curriculum Matching Analysis – Science

Appendix D: Percentiles and Standard Deviations of Science Achievement

Exhibit D.1 Percentiles of Achievement in Science
Exhibit D.2 Standard Deviations of Achievement in Science

Appendix E: Mongolia — Science Achievement

Exhibit E.1 Mongolia — Selected Science Achievement Results

Appendix F: Organizations and Individuals Responsible for TIMSS 2007
