TIMSS 2011

Teacher Questionnaire

<Grade 4>

<TIMSS>
<National Research Center Name>
<Address>

© IEA, 2011
Your school has agreed to participate in TIMSS 2011 (Trends in International Mathematics and Science Study), an educational research project sponsored by the International Association for the Evaluation of Educational Achievement (IEA). TIMSS measures trends in student achievement in mathematics and science and studies differences in national education systems in more than 60 countries in order to help improve teaching and learning worldwide.

This questionnaire is addressed to teachers of <fourth-grade> students, and seeks information about teachers' academic and professional backgrounds, classroom resources, instructional practices, and attitudes toward teaching. Since your class has been selected as part of a nationwide sample, your responses are very important in helping to describe primary/elementary education in <country>.

Some of the questions in the questionnaire refer to the "TIMSS class" or "this class". This is the class that is identified on the front of this booklet, and which will be tested as part of TIMSS in your school. If you teach some but not all of the students in the TIMSS class, please think only of the students that you teach when answering these class-specific questions. It is important that you answer each question carefully so that the information that you provide reflects your situation as accurately as possible.

Since TIMSS is an international study and all countries are using the same questionnaire, you may find that some of the questions seem unusual or are not entirely relevant to you or schools in <country>. Nevertheless, it is important that you do your best to answer all of the questions so comparisons can be made across countries in the studies.

It is estimated that you will need approximately 45 minutes to complete this questionnaire. We appreciate the time and effort that this takes and thank you for your cooperation and contribution.

When you have completed the questionnaire, please place it in the accompanying envelope and return it to:

<Insert country-specific information here>.

Thank you.
G1

By the end of this school year, how many years will you have been teaching altogether?

_____________ years
*Please round to the nearest whole number.*

G2

Are you female or male?

*Check one circle only.*

Female -- ○
Male -- ○

G3

How old are you?

*Check one circle only.*

Under 25 -- ○
25–29 -- ○
30–39 -- ○
40–49 -- ○
50–59 -- ○
60 or more -- ○

G4

What is the highest level of formal education you have completed?

*Check one circle only.*

Did not complete <ISCED Level 3> -- ○
Finished <ISCED Level 3> -- ○
Finished <ISCED Level 4> -- ○
Finished <ISCED Level 5B> -- ○
Finished <ISCED Level 5A, first degree> -- ○
Finished <ISCED Level 5A, second degree> or higher -- ○

G5

A. During your <post-secondary> education, what was your major or main area(s) of study?

*Check one circle for each line.*

Yes

No

a) Education—Primary/Elementary
b) Education—Secondary
c) Mathematics
d) Science
e) <language of test>
f) Other

B. If your major or main area of study was education, did you have a specialization in any of the following?

*Check one circle for each line.*

Yes

No

a) Mathematics
b) Science
c) Language/reading
d) Other subject
About Your School

G6
How would you characterize each of the following within your school?

Check one circle for each line.

Very high
High
Medium
Low
Very low

a) Teachers’ job satisfaction

b) Teachers’ understanding of the school’s curricular goals

c) Teachers’ degree of success in implementing the school’s curriculum

d) Teachers’ expectations for student achievement

e) Parental support for student achievement

f) Parental involvement in school activities

g) Students’ regard for school property

h) Students’ desire to do well in school

G7
Thinking about your current school, indicate the extent to which you agree or disagree with each of the following statements.

Check one circle for each line.

Agree a lot
Agree a little
Disagree a little
Disagree a lot

a) This school is located in a safe neighborhood

b) I feel safe at this school

c) This school’s security policies and practices are sufficient

d) The students behave in an orderly manner

e) The students are respectful of the teachers

G8
In your current school, how severe is each problem?

Check one circle for each line.

Not a problem
Minor problem
Moderate problem
Serious problem

a) The school building needs significant repair

b) Classrooms are overcrowded

c) Teachers have too many teaching hours

d) Teachers do not have adequate workspace (e.g., for preparation, collaboration, or meeting with students)

e) Teachers do not have adequate instructional materials and supplies

Questions M1–M3 ask about mathematics instruction for the <fourth-grade> students in the <PIRLS/TIMSS> class.

M1

In a typical week, how much time do you spend teaching mathematics to the students in this class?

_________ hours and _________ minutes per week

Write in the hours and minutes.

M2

In teaching mathematics to this class, how confident do you feel to do the following?

Check one circle for each line.

Very confident

Somewhat confident

Not confident

a) Answer students’ questions about mathematics

b) Show students a variety of problem solving strategies

c) Provide challenging tasks for capable students

d) Adapt my teaching to engage students’ interest

e) Help students appreciate the value of learning mathematics

M3

In teaching mathematics to this class, how often do you usually ask students to do the following?

Check one circle for each line.

Every or almost every lesson

About half the lessons

Some lessons

Never

a) Listen to me explain how to solve problems

b) Memorize rules, procedures, and facts

c) Work problems (individually or with peers) with my guidance

d) Work problems together in the whole class with direct guidance from me

e) Work problems (individually or with peers) while I am occupied by other tasks

f) Explain their answers

g) Relate what they are learning in mathematics to their daily lives

h) Take a written test or quiz

Mathematics Topics Taught

Questions M7–M8 ask about the topics taught and the content covered in teaching mathematics to the <fourth-grade> students in the <PIRLS/TIMSS> class.

M7

The following list includes the main topics addressed by the TIMSS mathematics test. Choose the response that best describes when the students in this class have been taught each topic. If a topic was in the curriculum before the <fourth grade>, please choose “Mostly taught before this year.” If a topic was taught half this year but not yet completed, please choose “Mostly taught this year.” If a topic is not in the curriculum, please choose “Not yet taught or just introduced.”

Check one circle for each line.

Not yet taught or just introduced

A. Number

a) Concepts of whole numbers, including place value and ordering

b) Adding, subtracting, multiplying, and/or dividing with whole numbers

c) Concepts of fractions (fractions as parts of a whole or of a collection, or as a location on a number line; comparing and ordering fractions)

d) Adding and subtracting with fractions

e) Concepts of decimals, including place value and ordering

f) Adding and subtracting with decimals

g) Number sentences (finding the missing number, modeling simple situations with number sentences)

h) Number patterns (extending number patterns and finding missing terms)

B. Geometric Shapes and Measures

a) Lines: measuring, estimating length of; parallel and perpendicular lines

b) Comparing and drawing angles

c) Using informal coordinate systems to locate points in a plane (e.g., in square B4)

d) Elementary properties of common geometric shapes

e) Reflections and rotations

f) Relationships between two-dimensional and three-dimensional shapes

g) Finding and estimating areas, perimeters, and volumes

C. Data Display

a) Reading data from tables, pictographs, bar graphs, or pie charts

b) Drawing conclusions from data displays

c) Displaying data using tables, pictographs, and bar graphs
Question M9 asks about mathematics homework for the <fourth-grade> students in the <PIRLS/TIMSS> class.

A. How often do you usually assign mathematics homework to the students in this class?

Check one circle only.

I do not assign mathematics homework ---

Less than once a week ---

1 or 2 times a week ---

3 or 4 times a week ---

Every day ---

B. When you assign mathematics homework to the students in this class, about how many minutes do you usually assign? (Consider the time it would take an average student in your class.)

Check one circle only.

15 minutes or less ---

16–30 minutes ---

31–60 minutes ---

more than 60 minutes ---

C. How often do you do the following with the mathematics homework assignments for this class?

Check one circle for each line.

Always or almost always

Sometimes

Never or almost never

a) Correct assignments and give feedback to students

b) Discuss the homework in class

c) Monitor whether or not the homework was completed
Question M10 asks about mathematics assessment for the fourth-grade students in the PIRLS/TIMSS class.

M10

How much emphasis do you place on the following sources to monitor students’ progress in mathematics?

Check one circle for each line.

- Major emphasis
- Some emphasis
- Little or no emphasis

a) Evaluation of students’ ongoing work

b) Classroom tests (for example, teacher-made or textbook tests)

c) National or regional achievement tests

Check one circle for each line.

- Yes
- No

- Mathematics content
- Mathematics pedagogy/instruction
- Mathematics curriculum
- Integrating information technology into mathematics
- Mathematics assessment
- Addressing individual students’ needs

**Science Content Coverage**

By the end of this school year, approximately what percentage of teaching time for science will you have spent during this school year on each of the following science content areas for the students in this class?

*Write in the percentage for each.*

a) Life science (includes environmental issues) .............................. %

b) Physical science (includes topics in physics and chemistry) ..................... %

c) Earth science (includes Earth and the solar system) ............................ %

d) Other ........................................................................ %

*Total = 100%*

**Science Homework**

Question S8 asks about science homework for the <fourth-grade> students in the <PIRLS/TIMSS> class.

**S8**

A. How often do you usually assign science homework to the students in this class?

*Check one circle only.*

I do not assign science homework --- ○ (Go to #S9)

Less than once a week --- ○

1 or 2 times a week --- ○

3 or 4 times a week --- ○

Every day --- ○

B. When you assign science homework to the students in this class, about how many minutes do you usually assign? (Consider the time it would take an average student in your class.)

*Check one circle only.*

15 minutes or less --- ○

16–30 minutes --- ○

31–60 minutes --- ○

more than 60 minutes --- ○

C. How often do you do the following with the science homework assignments for this class?

*Check one circle for each line.*

Always or almost always

Sometimes

Never or almost never

a) Correct assignments and give feedback to students ----- ○ — ○ — ○

b) Discuss the homework in class -------------------------- ○ — ○ — ○

c) Monitor whether or not the homework was completed ---- ○ — ○ — ○
Question S9 asks about science assessment for the <fourth-grade> students in the <PIRLS/TIMSS> class.

### S9

How much emphasis do you place on the following sources to monitor students' progress in science?

*Check one circle for each line.*

<table>

### S10

In the past two years, have you participated in professional development in any of the following?

*Check one circle for each line.*

- a) Science content
- b) Science pedagogy/instruction
- c) Science curriculum
- d) Integrating information technology into science
- e) Science assessment
- f) Addressing individual students’ needs

**Question S10 asks about professional development in the past two years for the <fourth-grade> students in the <PIRLS/TIMSS> class.**
**How well prepared do you feel you are to teach the following science topics?**
If a topic is not in the *fourth-grade* curriculum or you are not responsible for teaching this topic, please choose “Not applicable.”

Check one circle for each line.
