Your school has agreed to participate in TIMSS 2015 (Trends in International Mathematics and Science Study), an educational research project sponsored by the International Association for the Evaluation of Educational Achievement (IEA). TIMSS measures trends in student achievement in mathematics and science and studies differences in national education systems in almost 60 countries in order to help improve teaching and learning worldwide.

This questionnaire is addressed to teachers of <fourth grade> students, and seeks information about teachers’ academic and professional backgrounds, classroom resources, instructional practices, and attitudes toward teaching. Since your class has been selected as part of a nationwide sample, your responses are very important in helping to describe primary/elementary education in <country>.

Some of the questions in the questionnaire refer to the “TIMSS class” or “this class”. This is the class that is identified on the front of this booklet, and which will be tested as part of TIMSS in your school. If you teach some but not all of the students in the TIMSS class, please think only of the students that you teach when answering these class-specific questions. It is important that you answer each question carefully so that the information that you provide reflects your situation as accurately as possible.

Since TIMSS is an international study and all countries are using the same questionnaire, you may find that some of the questions seem unusual or are not entirely relevant to you or schools in <country>. Nevertheless, it is important that you do your best to answer all of the questions so comparisons can be made across countries in the studies.

It is estimated that you will need approximately 35 minutes to complete this questionnaire. We appreciate the time and effort that this takes and thank you for your cooperation and contribution.

When you have completed the questionnaire, please place it in the accompanying envelope and return it to:

<Insert country-specific information here>.

Thank you.
G1

By the end of this school year, how many years will you have been teaching altogether?

_____________ years

Please round to the nearest whole number.

G2

Are you female or male?

Check one circle only.

Female --- ○
Male --- ○

G3

How old are you?

Check one circle only.

Under 25 --- ○
25–29 --- ○
30–39 --- ○
40–49 --- ○
50–59 --- ○
60 or more --- ○

A. During your <post-secondary> education, what was your major or main area(s) of study?

Check one circle for each line.

Yes

No

a) Education—Primary/Elementary

b) Education—Secondary

c) Mathematics

d) Science

e) <language of test>

f) Other

B. If your major or main area of study was education, did you have a <specialization> in any of the following?

Check one circle for each line.

Yes

No

a) Mathematics

b) Science

c) Language/reading

d) Other subject
How would you characterize each of the following within your school?

Check one circle for each line.

Very high

High

Medium

Low

Very low

a) Teachers' understanding of the school's curricular goals

b) Teachers' degree of success in implementing the school's curriculum

c) Teachers' expectations for student achievement

d) Teachers working together to improve student achievement

e) Teachers' ability to inspire students

f) Parental involvement in school activities

g) Parental commitment to ensure that students are ready to learn

h) Parental expectations for student achievement

i) Parental support for student achievement

j) Parental pressure for the school to maintain high academic standards

k) Students' desire to do well in school

l) Students' ability to reach school's academic goals

m) Students' respect for classmates who excel in school

n) Clarity of the school's educational objectives

o) Collaboration between school leadership and teachers to plan instruction

p) Amount of instructional support provided to teachers by school leadership

q) School leadership's support for teachers' professional development

a) The school building needs significant repair
b) Teachers do not have adequate workspace (e.g., for preparation, collaboration, or meeting with students)
c) Teachers do not have adequate instructional materials and supplies
d) The school classrooms are not cleaned often enough
e) The school classrooms need maintenance work
f) Teachers do not have adequate technological resources
g) Teachers do not have adequate support for using technology

<Grade 4> Teacher Questionnaire
**M4**

Are the students in this class permitted to use calculators during mathematics lessons?

*Check one circle only.*

- Yes, with unrestricted use --- ○
- Yes, with restricted use --- ○
- No, calculators are not permitted --- ○

**M5**

A. Do the students in this class have computers (including tablets) available to use during their mathematics lessons?

*Check one circle only.*

- Yes --- ○
- No --- ○

(If No, go to #M6)

If Yes,

B. What access do the students have to computers?

*Check one circle for each line.*

Yes

- a) Each student has a computer -------------------- ○
- b) The class has computers that students can share --------------------------------------------- ○
- c) The school has computers that the class can use sometimes ----------------------------------- ○

No

C. How often do you have the students do the following activities on computers during mathematics lessons?

*Check one circle for each line.*

Every or almost every day

- a) Explore mathematics principles and concepts-------- ○
- b) Practice skills and procedures - ○
- c) Look up ideas and information --------------------- ○
The following list includes the main topics addressed by the TIMSS mathematics test. Choose the response that best describes when the students in this class have been taught each topic. If a topic was in the curriculum before the <fourth grade>, please choose “Mostly taught before this year.” If a topic was taught half this year but not yet completed, please choose “Mostly taught this year.” If a topic is not in the curriculum, please choose “Not yet taught or just introduced.”

Check one circle for each line.

A. Number
a) Concepts of whole numbers, including place value and ordering
b) Adding, subtracting, multiplying, and/or dividing with whole numbers
c) Concepts of multiples and factors; odd and even numbers
d) Concepts of fractions (fractions as parts of a whole or of a collection, or as a location on a number line)
e) Adding and subtracting with fractions, comparing and ordering fractions
f) Concepts of decimals, including place value and ordering, adding and subtracting with decimals
g) Number sentences (finding the missing number, modeling simple situations with number sentences)
h) Number patterns (extending number patterns and finding missing terms)

B. Geometric Shapes and Measures
a) Lines: measuring, estimating length of; parallel and perpendicular lines
b) Comparing and drawing angles
c) Using informal coordinate systems to locate points in a plane (e.g., in square B4)
d) Elementary properties of common geometric shapes
e) Reflections and rotations
f) Relationships between two-dimensional and three-dimensional shapes
g) Finding and estimating areas, perimeters, and volumes

C. Data Display
a) Reading and representing data from tables, pictographs, bar graphs, or pie charts
b) Drawing conclusions from data displays

A. How often do you usually assign mathematics homework to the students in this class?

Check one circle only.

I do not assign mathematics homework --- ○ (Go to #M8)

Less than once a week --- ○
1 or 2 times a week --- ○
3 or 4 times a week --- ○
Every day --- ○

B. When you assign mathematics homework to the students in this class, about how many minutes do you usually assign? (Consider the time it would take an average student in your class.)

Check one circle only.

15 minutes or less --- ○
16–30 minutes --- ○
31–60 minutes --- ○
More than 60 minutes --- ○

C. How often do you do the following with the mathematics homework assignments for this class?

Check one circle for each line.

Always or almost always
Sometimes
Never or almost never

a) Correct assignments and give feedback to students ---- ○ ○ ○
b) Discuss the homework in class ------------------------ ○ ○ ○
c) Monitor whether or not the homework was completed ---- ○ ○ ○
